

Monthly Payment Plan Agreement - SPRING 2026

MONTHLY PAYMENT PLANS DO NOT AUTOMATICALLY RENEW.
RETURN THIS AGREEMENT AND PAYMENT AUTHORIZATION FOR A SPRING 2026 PLAN.

Forms NEED to be returned by Friday, January 16, 2026 to avoid late fees.

All the terms and conditions of your MIAD Monthly Payment Plan Agreement (the "PPA") are incorporated herein and continue in effect for the length of the plan. Please refer to the Payment Plan Disclosure Document for other terms and conditions. To enroll in the MIAD Monthly PPA, a signed agreement must be returned to the Student Accounts Office, RL70. It is recommended that you contact the Student Accounts Office to verify your Statement Balance and confirm there are no additional charges or adjustments to your account before completing this form.

STEP ONE: Choose Monthly Payment Plan Option

I authorize MIAD to AUTOMATICALLY deduct monthly payments on the predetermined dates selected in Step Two. Under this option, payment will automatically be deducted from the bank account or credit / debit card I have specified on the **Recurring Payment Authorization Form**:

☐ Option 1 – **Automatic via Bank Account** - Set-Up Fee: \$0 (none)

☐ Option 2 – **Automatic via Card** - Set-Up Fee: \$50 (per semester)

I wish to make MANUAL payments via card, cash, or check on the predetermined dates selected in Step Two. Under this option, I understand that I will be responsible for making a payment each month:

☐ Option 3 – **Manual Monthly Payment Plan** - Set-Up Fee: \$50 (per semester)

Calculation:

PAYMENT PLAN AGREEMENT ADDITIONAL TERMS

Pre-Payment

The Amount Due may be paid at any time in advance of the payment dates scheduled above at no penalty.

Changes to my Statement Balance

If there are any changes to my student account resulting in additional charges, I am responsible for paying the additional amount due upon receipt of my next monthly statement, or 30 days after the date said changes are made to my account. Once this PPA is signed and returned to the Student Accounts Office, the PPA Amount Due and the monthly payment amounts cannot be increased without written consent of the Student and, if different, the bank account holder.

If there are any changes to my student account resulting in a reduction of charges, MIAD will automatically reduce the last payment(s) amount.

Returned Payments

A **\$20.00 Returned Payment Fee** will be added to my account for any check or automatic bank withdrawal that is returned by my bank for any reason (NSF, account closed, etc.).

Late Payment Penalty

If I fail to make my monthly payment, a late charge of **\$30.00 per missed payment** will be added to my account. MIAD will provide a 10-day grace period before the late penalty will apply.

***Graduating Students:**

In order to participate in the Spring 2026 Graduation Ceremony, Monthly Payment Plans need to be current.

- For students graduating in May 2026, all tuition and fees need to be paid in full in order to receive diplomas at the Graduation Ceremony. There is an option to set up a payment plan ending in April for those graduating in May 2026.
- For students graduating in August 2026 or December 2026, Spring 2026 payment plans need to be current and paid according to the plan agreement. Contact Student Accounts for additional information or assistance.

NOTE: *May 2026 Graduating Seniors will need to have account balances paid in full by April 22, 2026 (W) to receive diplomas at the May 9, 2025 Graduation Ceremony. Students who are current on their payment plan can participate, but will not receive diplomas until their plan is fully paid.

Business Hold

All student accounts using a payment plan to take care of their tuition and fees balance are placed on a Business Hold. The Business Hold is used to track accounts that still have payments in process. After the plan is fully paid, the hold is removed. All accounts that are current on their payments for their plan are able to register for future term courses. The Business Hold does not prevent students from moving forward with registration activities.
